

Kung Fu Camp Update

Hello everyone,

The first thing is that, following Grand Master Lee's invitation, Master Paul Chu from Houston will be joining us to teach Wing Chun's chi sau, or sticky hands, from the famous Yip Man. It should add to everyone's in close fighting technique repertoire.

Secondly, weapons. The optimal length of the pole should be from the ground to the fingertips stretched above the head. My length is 84" (I'm 5'6"). The standard spear is 84" which we have available for \$60.

If anyone wants a longer pole (100") it will be \$84 and you can get the spear tip and tassel (to be assembled) for another \$15.

We will have bubble wrap and cardboard to cover the spear tips for safety.

Sorry for any confusion but I was very disappointed in the quality of the other options available. Please ignore the pole on the original registration form.

If you are getting a weapon, please send in your form as early as possible to make sure I can get them delivered.

Thanks and see you soon,

M. Glenn Guerin
